## TRATEING PACILITIES NEEDED FOR Y-RAY TECHNICIANS

M. Khvorost, X-Ray Technician Kem' Station, Kirovak Railroad

Special 6-month courses should be offered at the various capitals of the republics of the USER, as well us in some of the larger oblast cities, to train engineers and maintenance men in the fundamentals of the assembly, maintenance, and operation of X-ray and physiotherapy equipment. As the situation now stands, much new X-ray and physiotherapy equipment is being installed at various rural points but there are no qualified personnel to operate or care for it. Very few oblast cities have such specialists and in rayon centers they are almost nonexistent.
